Learning professional

I can highly recommend **Marion**. I had the pleasure to have Marion as a career and development coach for 9 months. Her inquisitive nature combined with her business and coaching experience make a big difference and has helped me advance my career.

Sales team lead

I have worked with **Marion** as HR manager/sponsor on a multi country coaching initiative. Through Marion's coaching, her client developed and evolved how he uses his time, talent and energy and he made it sustainable. The insights he gained developed significantly his self-confidence and behaviour - setting goals and going for them. Very transformational and impactful coaching! Marion has been as well fantastic peer bringing expertise in the management of the overall initiative.
